CALL FOR PAPERS

Prospective authors are invited to submit high-quality extended abstracts (max. two pages) representing original results in all areas of Optical Characterization of Materials. The final papers are limited to ten pages in single-column format, including figures. All manuscripts will be included in the conference proceedings, which will be published by KIT Scientific Publishing in high-quality color print.

For each oral presentation, 20 minutes will be provided for the talk, and 5 minutes for questions and discussion. Posters are allowed up to ISO A0 size (portrait orientation).

For each accepted paper one author has to register and present the paper at the conference.

Detailed instructions for submissions are available on the conference website.
